8th International Workshop on Applications and
Services in Wireless Networks

October 8th – 10th, 2008 in Kassel, Germany

About ASWN 2008

ASWN 2008 is the 8th *International Workshop on Applications and Services in Wireless Networks* following successful events in France, Switzerland, USA, Germany, and Spain.

In 2008 the Workshop takes place in Kassel (Germany) and is organised as a three-day single-track session presenting tutorials and scientific technical papers from academia and industry.

Authors are invited to submit full technical papers covering the topics of the workshop or related fields. Presentations of recent scientific results, developments or work in progress are welcome. Please propose half-day tutorials to the technical program chairs until the full paper submission deadline. Proposals should include one page describing the tutorials content and a CV of the presenter.

Extended Submission

Deadline:

May 15th 2008

Topics of interest

- Mobile multimedia applications
- Authentication, trust, and security
- Autonomic communication and services in wireless systems
- Cooperative networks and self organising systems
- Context awareness
- Middleware for mobile services
- Mobile ad-hoc and multi-hop wireless networks
- Naming and addressing
- Peer to peer communication for infrastructure-less environments
- Performance of wireless networks and systems
- Personalised services and applications
- Platforms and services supporting ubiquitous service provisioning
- QoS profiling and pricing, end-to-end QoS
- Sensor networks and applications
- Service creation for mobile devices
- Service discovery - protocols and frameworks

Steering Committee:

- Hossam Afifi, INT-GET, France
- Stefan Arbanowski, FOKUS, Germany
- Torsten Braun, University of Bern, Switzerland
- Klaus David, University of Kassel, Germany
- Olaf Droegehorn, University of Kassel, Germany
- Nada Golmie, NIST, USA
- Wendi Heinzelman, University of Rochester, USA
- Wolfgang Kellerer, DoCoMo Eurolabs, Germany
- Pascal Lorenz, University of Haute Alsace, France
- Stephan Steglich, TU Berlin, Germany
- Djamal Zeglache, INT-GET, France

Technical Program Committee:

- Carles Antón, CTTC, Spain
- Janos Bito, BUTE, Hungary
- Vicente Casares, UPV, Spain
- Roberto Cascella, University of Trento, Italy
- Christophe Cordier, France Telecom R&D, France
- Klaus David, University of Kassel, Germany
- Panagiotis Demistichas, University of Piraeus, Greece
- Sudhir Dixit, Nokia, USA
- Olaf Drögehorn, University of Kassel, Germany
- Henk Eertink, Telematica Institut, Netherlands
- Savo Glisic, University of Oulu, Finland
- Roch Glitho, Ericsson and Concordia University, Canada
- Sandra Haseloff, University of Kassel, Germany
- Ekram Hossain
- Matti Latva-aho, CWC University of Oulu, Finland
- Thomas Magedanz, TU Berlin, Germany
- Klaus Moessner, University of Surrey, UK
- Luis Muñoz, University of Cantabria, Spain
- Ilja Radusch, TU Berlin, Germany
- Oriol Sallent, UPC, Spain
- Amardeo Sarma, NEC, Germany
- Joan Serrat, UPC, Spain
- Dorgham Sisalem, iptelorg, Germany
- Mikhail Smirnov, FOKUS, Germany
- Antonio Valdovinos, Universidad Zaragoza, Spain
- Kenichi Yamazaki, NTT DoCoMo, Japan
